TEACH. COLLABORATE. EARN. GROW.

Vilabs Academy is a collaborative learning academy that works with educators, universities, and industry experts to deliver skill based, future-ready and professional courses.

Our programs are designed to support students, professionals, and corporate learners, while ensuring instructors are respected, supported, and fairly rewarded.

WHAT IS THE INSTRUCTOR COLLABORATION MODEL?

You bring your knowledge and teaching expertise. We manage the end-to-end infrastructure—platform, marketing, and administration—so you can focus entirely on teaching.

Together, we create courses that:

- Deliver real skill based and professional programs
- Reach learners beyond a single institution
- Generate shared revenue and long-term impact

This is a partnership model, not a one-time teaching contract.

WHO CAN COLLABORATE?

- University professors and lecturers
- Visiting and adjunct faculty
- Corporate trainers and consultants
- Researchers and subject experts
- Independent educators
- Subject Matter Experts
- Academic, professional, and industry-focused instructors are welcome.

WHAT YOU CAN TEACH

- Skill based or elective courses
- CPD-focused certification programs
- Short courses and masterclasses
- Corporate and executive training
- Research and project-based learning
